5. If you have multiple classes you can choose to view only one by using the drop-down. If you want to combine the report for just a few of your classes, use the link 'classes' (a pop up window appears) and check the box next to the ones you want.

Or if you want to select a few students from across multiple classes, select the 'Students' link. Or you can choose from any groups you may have created.

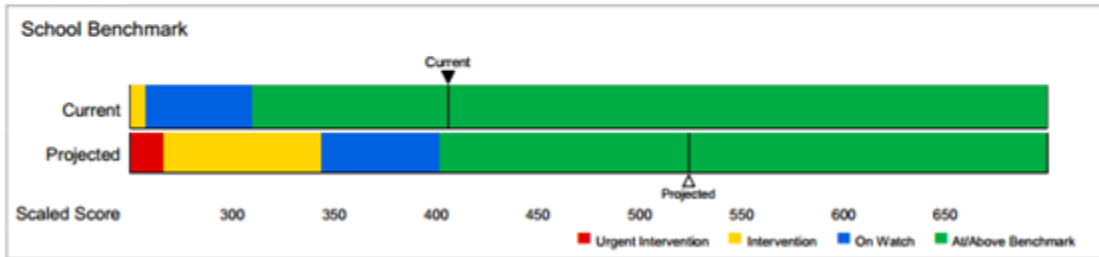

6. Use the custom date if you want to get closer to the actual day you will be giving the post test. Test could affect the projected score by several points.

- Click view report and then SAVE IT. This report will change the second the student takes a second assessment!

### STAR Reading Test Results

|                                |   |
|--------------------------------|---|
| Current SS (Scaled Score): 406 | Test Date: 09/17/2013   |
| IRL: 3.4                       | ZPD: 2.8-4.0  |
| Projected SS for 06/16/14: 524 | Based on research, 50% of students at this student's level will achieve this much growth. |

#### 's Current Performance

- For differentiated growth, you will need the current SS score and the projected score.
- You can also see their zone of proximal development (ZPD)
- The rest of the information is very nice to have and especially handy for a teacher/parent conference. However, it is a lot of paper to print when all you really need for now is this. So save the file = save a tree.
